

Mission statement

"Commitment to children their care and life long learning in the Early years."

Round and Round the Gardens Childcare believes that all children are individuals.

We strive to provide a welcoming, happy, calm and caring environment where children are able to play and learn at their own pace, whilst making discoveries and choices for themselves along the way and through their own interests.

In doing this, it is our aim to provide a nurturing environment that facilitates children's learning and development enabling them to grow in confidence, self-esteem and develop their own personality and spirituality within a framework of appropriate expectation and continuity.

The environment at Round and Round the Gardens will be open and welcoming; with a home from home feeling which includes everyone. It will be rich in opportunities and reflect the world today as well as being appropriately stimulating and safe, with a degree of risk-taking involved, so as to encourage fun and experimentation with a wide range of materials inside and outdoors.

We understand that parents are children's primary carers and acknowledge that only by working in partnership with parents throughout the setting can we fully understand the need of each individual child.

We view communication with the children, their families and staff throughout the setting as a vital tool and will aid the process of communication in any way necessary for the needs of the children in our care.

Staff are experienced and will be excellent role models for the children in our care. They will seek to develop their personal skills and knowledge so that they are always best placed to identify the needs of the individual child and their families.

As a provision our standards will always be high and practice always reflected upon. Our 'door will be open' to all.
